EXPERIENCE

Freelance Web Developer

MARCH 2020 - PRESENT

Using React and the MERN stack to develop sites for close friends and family. Deployment on heroku or github-pages, occasionally deployed to 3rd party hosting.

Quality Plumbing, Kodak TN — *Service Technician*

SEPTEMBER 2017 - OCTOBER 2020

- Work closely with team members to establish a professional, positive, and continuously improving environment.
- Develop personal connections with customers to adapt to their needs/wants while delivering exceptional customer service.
- Diagnose various plumbing issues for each customer, then resolve the issue via repair or new installation.

McNutt Oil Company, Newport TN — *Sales Clerk*

FEBRUARY 2016 - SEPTEMBER 2017

- Maintaining and organizing products.
- Manage shipments, both incoming/outgoing.
- Train all new employees on store operations.

PROJECTS

AHBowtique — *Ecommerce site for an Esty like store*

- Built using the MERN stack and bootstrap/bootswatch for layout.
- Redux for state management on the frontend.
- Using mongoDB atlas for the database, and a custom API backend built in node.js.

GamerFacts — *Video game review site.*

- Built using the MERN stack and with custom styling.
- Redux for state management on the frontend.
- Full CRUD functionality for reviews and comments.
